

WCC Road Rules: Ride Controlled, Ride Wise, Ride Smart

By signing
up to a WCC
Ride,

you are
agreeing to:

- **Ensure that you, your kit and your bike** are fit and ready for the ride you are signing up for
- **Plan and be prepared for** changing ride conditions
- **Listen to and follow the direction and guidance** of your Ride Leader (RL)
- **Contribute to ride-group safety by being aware of:**
 - Your road-position within the group
 - The position of fellow-riders and other road users around you
 - The group's overall condition and status on the road
 - Your responsibility to communicate with fellow riders, highlighting hazards, and signaling your intent before changing group position
 - Your responsibility to inform your RL if you need support or wish to leave the ride
- **Recognise that when you interact with other road users** they will have different agendas, perceptions and points of view regarding theirs, yours and the group's conduct and actions; this may occasionally lead to misunderstanding and on-road conflict. In such cases:
 - Try to stay calm and diffuse confrontation
 - If rider and/or group safety is compromised, support the submission of the WCC Incident Report Form, so that formal post-ride investigation can take place
 - Remember you are representing WCC and are a custodian of our good name
- **Above all else:**
 - Ride Controlled, Ride Wise, Ride Smart
 - Live the moment and have fun
